About Curtin’s MBA (Global)

The MBA (Global) is different from other MBAs because it focuses on global markets and practices, and you can take it directly after completing your bachelor degree. This two-year program supports your transition from university to the workplace, whatever your discipline.

You’ll be mentored to help you build your career, increase your skill set and develop your potential. You’ll learn to work independently and in teams, and to demonstrate leadership and professionalism in the workplace.

Course structure

The course starts with a one-week orientation program, introducing you to the program’s faculty and industry advisors, and demonstrating the importance of effective engagement and building relationships in the multicultural, global market.

Following orientation, you’ll study 15 course units over four semesters. The units are divided into three categories: core business knowledge; global practice; and analytical practice.

Duration

Two years full-time or part-time equivalent.

Location

Bentley Campus, Perth, Western Australia.

Entry Requirements

To apply for the MBA (Global), you must have:

- a recognised bachelor degree in any discipline
- a course-weighted average of credit or above
- met the University’s English language requirements.

No work experience is necessary but if you have more than three years work experience in a managerial role, you will be encouraged to apply for the Curtin Graduate School of Business MBA instead, which is tailored to suit established professionals.
