CURTIN GRADUATE SCHOOL OF BUSINESS

AUSTRALIA’S ONLY OIL AND GAS MBA

Master of Business Administration (Oil and Gas)
Graduate Certificate in Business (Oil and Gas)

Make tomorrow better. curtin.edu/mba-oil-gas
MBA (OIL AND GAS) COURSE STRUCTURE
The MBA (Oil and Gas) is a unique major combining industry knowledge and management principles with the core requirements of the Curtin MBA to ensure that graduates have a broad coverage of key functional disciplines within the field as well as specialised knowledge of the oil and gas industry.

The course offers a variety of different study modes and its duration is flexible in order to allow you to manage your time in conjunction with your work commitments and to permit various exit points.

FOUNDATION UNITS (100 CREDITS)
The foundation is designed to provide the bedrock of all the MBA programs and consists of courses in economics, financial management, organisational behavior and marketing management.

CORE UNITS (100 CREDITS)
The core units build on the foundation units and provide students with more detailed functional and industry expertise. Units offered cover corporate finance, human resource management, international oil and gas markets and natural resources economics.

OPTIONAL UNITS (50 CREDITS)
You must choose two electives from the optional units which provide further avenues for specialisation in either functional or technical dimensions. Units offered cover aspects including energy policy, oil and gas contract law, oil and gas management and strategic procurement. On completion of four specified units from the foundation, core and electives, you have the option to graduate with a Graduate Certificate in Business.

CAPSTONE UNIT (50 CREDITS)
The capstone unit, referred to as Strategic and International Business Competitiveness, provides the opportunity to bring together all your prior learning into an intensive program built around a business project.

MORE ABOUT THE OIL AND GAS MAJOR
Curtin University and Robert Gordon University, Scotland

In response to a growing demand for senior managers and executives with a solid business skill set and knowledge of the energy sector, the Curtin Graduate School of Business (CGSB) has partnered with the Aberdeen Business School at Robert Gordon University (RGU) to deliver a unique MBA program in oil and gas management.

The Curtin MBA (Oil and Gas) degree is designed to provide experienced practitioners in oil and gas and other relevant sectors with the advanced business, management and leadership skills needed to function at a strategic level as contemporary energy managers.

Aberdeen, which has a reputation as the oil capital of Europe, is a hub for energy companies and innovation. Delivering the best of RGU’s program online in combination with our own experts in the energy sector, our MBA (Oil and Gas) is the only choice for managers serious about gaining the critical skills they need to further their business career.

The course is aimed at middle to senior managers within the oil and gas industry or those aspiring to these positions.
